Tuition & Financial Aid

Payment and Fees

Please see the financial aid officer for specific details about financial aid. The responsibility of financing a student's postsecondary education belongs primarily to the student and/or guardian. Fees include tuition, textbooks, uniforms, classroom supplies, cap, insurance, and other miscellaneous supplies. Fees for textbooks, supplies and fees, if included, are non-refundable.

***Students who have not made financial aid arrangements by the first day of class will not be allowed to begin classes.**

Refund

Refund for Early Withdrawal- Fees and Supplies:

Fees that must be paid to external entities before enrollment as part of a program's application process such as drug screening charges and background check fee are not considered program tuition and are non-refundable.

Fees that must be paid to the school before enrollment as part of the programs application fees and acceptance fees may be partially refunded if these fees are in excess of \$100.00. Students who officially withdraw on or before the first day of classes will be refunded any of these fees paid in excess of \$100.00.

Students who officially withdraw after the first day of their program are responsible 100% of any textbook, supply or fee expenses incurred by the institution.

Refund Schedule for Early Withdrawal- Tuition:

If any student withdraws from his/her program, voluntarily or involuntarily, after (7) seven calendar days of the beginning of the payment period, but before 60% of the hours in the payment period, the student will owe WCC prorated tuition for that payment period and any previous remaining balance due. The tuition will be prorated based on the percentage of hours possible at the time of withdrawal. For example, if there are 450 hours in a payment period and the student withdraws after 225 hours, then the student will owe for half the tuition because they withdrew after half the hours ($225/450=50\%$).

If any student withdraws from his/her program, voluntarily or involuntarily. After 60% of the hours in a payment period, the student will owe WCC 100% of any of the tuition charged for that payment period and any previous remaining balance due.

Refunds for short term programs, such as Certified Nursing Assistant, are prorated. The non-refundable charged are calculated based on the number of hours students have had the opportunity to complete in the course.

For more information, please refer to the WCC Financial Aid Handbook section of this handbook or contact the financial aid office.

Student Consumer Rights Information

The student is responsible for obtaining and completing the proper financial aid application on a timely basis for the type of financial aid desired. The WCC Financial Aid Coordinator is available to provide information, counsel and assistance regarding financial aid matters. It is the student's responsibility to notify and report to the Financial Aid Coordinator immediately any of the following:

- Withdrawal from school
- Name change
- Address change

If student loans have been received, an exit interview must be arranged with the Financial Aid Coordinator when completing the program of study or withdrawing from the school. Failure by the student to complete the exit interview will result in a hold placed on the student's record and refusal of future eligibility to receive federal financial aid awards.

Teach Out Agreement

Career and technical postsecondary accredited programs are required to provide a written agreement that outlines equitable treatment of students if the institution makes a determination to discontinue an educational program before all students enrolled in that program have completed the program. To this end, the Waynesville Career Center will:

1. Provide equitable treatment of students by ensuring that the school the student chooses to attend has the necessary support services, resources that are reasonable in similar content, structure and scheduling and is geographically close to Waynesville Career Center.
2. Be consistent with applicable standards of accreditation and Commission Policies.
3. Ensure the discontinuing program fulfills the mission and to meet all obligations of existing students.
4. Inform students of tuition due at the end of the program being discontinued.
5. Provide students with a timeline on dates the discontinued course(s) will end.
6. Provide, if applicable, a description of how tuition is to be recovered if a refund of fees is warranted.
7. Insure teach out agreements are consistent with COE standards.

Academic Integrity Policy

Academic misconduct is any conduct, whether planned, attempted, or completed, that does, is intended to, or the effect of which would be to improperly distort a student's grades or other student records. Academic misconduct prevents the student from learning the skills required to provide appropriate nursing care and is an offense to the academic integrity of the learning environment and may have the effect of endangering the welfare of clients both now and in the future. ALL forms of academic dishonesty will call for discipline.

Unprofessional and dishonest acts include, ***but are not limited to*** the following:

1. Copying/submitting another person's work
2. Unauthorized taking of someone else's work
3. Using unauthorized notes or equipment (i.e. smartwatches)
4. Stealing an examination or using a stolen examination
5. Allowing another student to have access to your work without specific authorization
6. Falsifying a client's record
7. Plagiarizing any assignment. "Plagiarizing" means using someone else's ideas or words
8. Theft from a patient or associate, supplies/other material or equipment from the school or clinical sites
9. Altering grades on examinations or assignments in any manner
10. Post-examination alterations

Examples include but not limited to: poor attitude, poor interpersonal relationships, cheating, poor hygiene, lack of initiative, disruptive behavior, sleeping in class, failure to follow school policy, impaired ability to function, disrespect to faculty or other students, failure to turn in assignments, etc. Paperwork dealing with student probation and/or warnings will be placed in the student's file. At the close of the probationary period (when applicable), the student's progress will be re-evaluated by the instructor and or director. At this time, the student will be (1) removed from probation, (2) dismissed from the program, or (3) disciplined as deemed appropriate by administration.

Dismissal

Students who are dismissed from the program will receive a letter from the program director/administrator providing notice of the effective date and reason for dismissal. Those students who receive any financial aid must also complete the dismissal process by meeting with the Financial Aid Officer. Students who owe a balance when they are dismissed must pay that balance immediately or make payment arrangements with the Financial Aid Officer.

Dismissal Appeal Procedure

If the student feels that he/she was dismissed unfairly by the instructor/program coordinator, he/she may submit a written appeal to the Assistant Director. The appeal must be received in the office of the Coordinator/administration no later than 3:30 p.m. on the next working day following the student's receipt of the written notice regarding the original dismissal.

For purposes of this appeal procedure only, the term "working day" shall be any Monday through Friday which the Career Center is open. It shall not include Saturday, Sunday, any state or federal holiday on which the Career Center is closed, and shall not include any day on which the Career Center is closed by the School District for inclement weather or other emergency. A written appeal under this procedure may be delivered in person, by facsimile, or by email. It is the student's responsibility to demonstrate that all deadlines and other requirements established under this procedure have been met. Failure to establish compliance with the deadlines and other requirements will result in dismissal of the appeal.

A review will be held by the assistant director within three (3) working days of the appeal being received. The student may plead his/her case for a maximum of 15 minutes. The student will be notified via letter of the final decision. **Academic and clinical dismissals are not typically heard because grades are awarded in accordance with academic and clinical standards applicable to all students and reflect the professional judgment of the instructors.**

If the assistant director upholds the dismissal of the student and the student disagrees with the Assistant director's decision, the student may appeal to the Director of the Waynesville Career Center. A written appeal must be delivered to the Director no later than 3:30 p.m. on the next working day following the student's receipt of the written notice regarding the Assistant director's decision. The WCC Director will have three (3) working days to review all documentation. The Director will submit his/her decision in writing to the student no later than 3:30 p.m. on the fourth working day following the Director's receipt of

the appeal, provided, however, that the Director may extend time for response if in the Director's judgment and sole discretion such an extension is necessary to further consider and/or acquire additional information regarding the appeal. ****The decision of the Waynesville Career Center Administration is final****

Students may utilize this procedure without reprisal. This means that a student will not be subject to adverse action solely because the student has used the appeal procedure. However, students will be subject to discipline for the conduct that is the subject of the appeal and for any and all other unsatisfactory conduct that may be discovered or brought to the attention of the Career Center personnel during the appeal process.

Students who have filed an appeal permitted under this procedure may be permitted to remain in class during the appeals process, until a decision is rendered. If the student chooses not to attend classes the hours missed will count against the student. However, if the student has been dismissed for a behavioral issue (or other reason warranting removal), and that student's presence in the classroom or clinical area is deemed to be disruptive to the academic process or detrimental to others, the student may not be allowed to attend class or clinical rotations. A decision to remove a student from class and/or clinical pending the resolution of the appeal is final.

Drop/Withdraw Process

Students withdrawing from an adult program must fill out a drop form and submit it to the Instructor/PN Coordinator or main office before withdrawing. If the student chooses to drop/withdraw from the program, the student is responsible for paying any unpaid balance. After completing the drop form, the student **must** meet with the Financial Aid officer to finalize financial aid obligations.

Late Admission Policy

No student shall be admitted later than five (5) days after the established entrance date of the program. Any late admission is dependent upon program enrollments and at the discretion of the administration based on state and federal guidelines.

Re-Admission

Students who withdraw or are dismissed from the program due to lack of attendance or for academic reasons may re-apply in the future. Students who are dismissed for clinical failure (PN) or violation of the Academic Integrity Policy and/or other standards of professionalism will not be considered for re-admission.

If a student wishes to re-apply, he/she must complete the entire application process on the same basis as other applicants. All unpaid balances will have to be paid before re-admittance. If re-admitted within 180 days of the student's dismissal date, students are subject to the 180-day remittance rule for financial aid purposes. Please refer to the financial aid handbook for more information.

Student's that are re-admitted into the same program are responsible to complete the program in its entirety. All previous hours completed will not be counted towards completion of the program. ****Please see page #9 for transfer policy****

Attendance Policy

Definition of attendance- Attendance is being present and prepared to participate in the program at the designated time scheduled for the day.

Definition of Tardy: The student will not be at their designated place by the designated time.

The student will receive a written counseling statement after the 3rd tardy, and will be placed on probation after the 5th tardy. The program coordinator/instructor can excuse a tardy on a case by case basis. A total of seven (7) tardies may be accrued during the entire program. Any tardy over the stated amount will deem the student academically ineligible to continue in the program. You will be counted tardy up to 7 minutes past the start time. After 7 minutes it will be counted as a no call no show, if the student has not notified the school, as well as a tardy.

Definition of absence- When a student is **NOT** present at the designated time.

Attendance is also considered a mark of professionalism in any job field. An employee is on time and ready for duty at the scheduled time. Students in the Waynesville Career Center are being prepared for the profession and will be held to the standards of the profession.

Example of attendance: Class time begins at 08:00; the student is in the building by 07:45 preparing for class. Or, clinical begins at 06:00 am; the student is at the clinical site by 05:45 preparing for clinical duties.

Definition of unreported absence (no call/no show) - Not reporting you are going to be late or absent. (A *student not calling, or not showing up at the designated time*). You must call or notify in writing, by the designated time to notify the school, instructor, or secretary and let them know you are either going to be late or absent. In any profession, it is standard for the employee to notify the employer himself or herself for any absence from the job site- rather than having another person call on your behalf. If you still arrive late after calling you will be counted as tardy.

******Students MUST sign in/out of their program office. Failure to do so will result in loss of hours or even dismissal. ******

It is **imperative** that **the student** notify the school at least one hour before class or clinical start times, if the student is going to be tardy or absent. Students arriving late must sign in and **immediately** report to assigned instructor. Each student is required to attend designated field trips, seminars and/or conventions and pre/post conferences along with faculty representative. Students not attending scheduled events will be counted absent.

During the course of the Program, the student is only allowed to miss a total of:

- 40 hours for T&I programs (part time is 20 hrs per school year)
- 60 hours for Practical Nursing
 - Not to exceed 16 hours during freshman clinical
 - Not to exceed 16 hours during senior clinical
- 4 hours for Certified Nursing Assistant

****Prorated hours will be used for any cosmetology transfer student****

The student will receive written warning when his/her absences exceed the following:

	<u>T&I Programs*</u>	<u>Practical Nursing</u>
1 st warning	15 hours	20 hours
2 nd warning	30 hours	40 hours
	Dismissed over 40	Dismissed over 60

****Part time T & I student hours missed, will carry over for the next year.***

Students may obtain additional training beyond their scheduled training hours only during times that the institution is open for business and providing training in the program in which a student is enrolled. This policy accommodates students who may be working on a lab or clinic application that extends beyond their scheduled hours of attendance, and for students who may need to make up time as a result of prior absences by the student. Licensed instructors are on campus and are providing training and supervision of lab or clinic services between the hours of 3:00 pm and 10:00 pm Monday-Wednesday, and 8:00 am-4:30 pm one Saturday per month. Students may only obtain additional training during these hours. No credit will be given for any time that a student is clocked in if supervised training is not being provided.

“Friends & Family” Activities

Additional training time may be granted for practical work only, i.e., performing clinic services, lab applications and procedures, or sanitation training. Additional training time will only be permitted if space is available and may not displace another student who is in attendance during his/her scheduled time of attendance. The acting instructor/supervisor on site has the authority to restrict additional training time at his/her discretion.

Attendance Checkpoints

Individual student clock hours will be reviewed at least once per month and attendance progress reports will be provided.

Any student missing more than the allowable number of hours for that program will be dismissed from the program. If the student feels that he/she had extenuating circumstances, he/she has the right to appeal the absences when he/she has gone over the allowable number of hours. The student should submit in writing to the Assistant Director a letter stating that they wish to appeal their termination from the program. This letter of appeal must be received no later than 3:30 p.m. on the next business day following the student’s receipt of the original dismissal notification.

Please see “Dismissal: Appeals Procedure” for more information regarding how to appeal program attendance.

Student Dismissals for Attendance

If a student accumulates enough absences that he/she cannot complete the required hours within the scheduled attendance time on his/her individual calendar, the student will be dismissed.

	<u>Required Hours</u>	<u>Scheduled Attendance</u>
Cosmetology	1220 hours	1342 hours
Nail Technology	400 hours	440 hours

TIME CLOCK

Waynesville Career Center uses a time clock for adult students to track time. The time clocks are located in the PN office for PN students, the main WCC office for T & I programs, and the classroom for Cosmetology students.

Students will be held accountable for clocking in and out at their designated times and area. **Students are prohibited from clocking anyone else in/out and understand that doing so will result in a discipline referral or dismissal from the program.** Students are responsible for reporting any issues that they may have immediately and by not doing so could result in the loss of hours.

Make-up Hours

Practical Nursing

PN students have no scheduled make-up hours. All student clock hours will occur during the scheduled instructional and clinical times outlined in the student handbook and/or course syllabus.

Trade and Industry Programs

Trade and Industry students have no scheduled make-up hours. All student clock hours will occur during the scheduled instructional and clinical times outlined in the student handbook and/or course syllabus.

Procedure for Absenteeism

When *PN* students are absent, the student must fill out the sign in/sign out log book that is located in the PN office with the PN secretary. Students with a pre-arranged absence must fill out an absentee form prior to being absent.

T&I & Cosmetology will need to let the main office know. **(Any physician's excuse or supporting documentation should be kept by the student in case the student must appeal his/her absences and also make sure the secretary has a copy). IT IS THE STUDENT'S RESPONSIBILITY TO NOTIFY THE OFFICE.**

In the event of an unreported absence (no call/no show), the student must meet with the coordinator/assistant director upon returning to class or clinical area. **Three unreported absences will result in dismissal from PN, Cosmetology, and any T&I program. Only one unreported absence from Certified Nursing Assistant for dismissal.**

Adult Student Grievance Policy

Alleged acts of unfairness or any decision made by school personnel, except as otherwise provided for under student suspension and expulsion, which students believe to be unjust or in violation of pertinent policies of the Board or individual school rules, may be appealed to the Career Center Director or a designated representative.

The following guidelines are established for the presentation of student complaints and grievances:

- ▶ The Career Center Director shall schedule a conference with the student and any staff members involved to attempt to resolve the problem.

- ▶ If the problem is not resolved to the satisfaction of the student, a request may be submitted for a conference with the superintendent of schools or designee. The superintendent shall arrange a conference to consider the problem, and to inform participants of the action that will be taken.
- ▶ If the student is not satisfied with the action of the superintendent/superintendent's designee, the student may submit a written request to appear before the Board of Education. Unless required by law, a hearing will be at the discretion of the Board. The decision of the Board shall be final.
- ▶ A copy of the grievance and the grievance resolution will be maintained in the office of the Assistant Superintendent for Instructional Services.

All persons are assured that they may utilize this procedure without reprisal. The Waynesville Career Center is interested in employee concerns and ideas for improving the district. Students are encouraged to discuss concerns with the program instructor and the administrative staff so that issues may be addressed in a timely fashion.

The Waynesville Career Center's accrediting body, the Council on Occupational Education, reviews all written, signed complaints (which include the complainant's mailing address) that allege non-compliant activities and practices of accredited institutions. Complaints alleging violations of standards, criteria, and/or conditions of the Council by institutions are reviewed following a prescribed procedure. This procedure involves obtaining from the complainant a certification that all available institutional remedies have been exhausted or a statement documenting reasons why these individuals in cases of disciplinary action or dismissal, or act as a court of appeals in such matters as admission, graduation, fees and similar points of issue unless the context suggests unethical or unprofessional action. Following is the Council's mailing address, phone number and web address:

The school administration shall have the right to conduct searches, which are reasonable in scope, of persons reasonably suspected to be in violation of this policy. Such searches shall be conducted in accordance with the Waynesville R-VI Board Policy. Upon discovery of any prohibited substance, the Waynesville Department of Public Safety will be notified.

Any student who, after given an opportunity to present his or her version of the incident, is found by the administration and/or staff to be in violation of this policy shall be subject to immediate termination from the program and referred for prosecution. Students who are dismissed for violation of the Drug or Alcohol Policy may appeal their dismissal as provided by the appeal procedure. Strict compliance is mandatory. The WCC faculty shall immediately report all incidents involving a controlled substance to the administration.

Students are subject to alcohol and/or drug screening when there is reasonable suspicion that a student may be under the influence of alcohol and/or drugs. The Waynesville Career Center reserves the right to select the alcohol/drug screening lab.

As a condition of performing clinical rotations that are required for the completion of the program, certain clinical sites may require random alcohol/drug test screening. Students should be made aware that this is a policy requirement which that particular clinical site has established for the privilege of performing a clinical

rotation at that facility.

Refusal to submit to testing or a positive test result, will result in dismissal from the program.

Harassment

The Waynesville Career Center will not tolerate harassment or bullying in any form. Students who feel that they have been victims of harassment/bullying should report the incident at once to the Coordinator/Instructor. Complaints will be handled in the strictest confidence with protection from reprisals. If, after investigation, an allegation of harassment/bullying is substantiated, immediate and appropriate disciplinary action will be taken. Bullying and student intimidation are prohibited in accordance to the Waynesville R-VI School Board Policy. Bullying is defined as repeated and systematic intimidation, harassment, and attacks on a student or multiple students perpetuated by individuals or groups. Bullying includes, but is not limited, to physical violence, verbal taunts, name-calling, put-downs, threats, extortion or theft, damaging property, or exclusion from a peer group. Bullying may also include cyber bullying or cyber-threats. Cyber-bullying is sending or posting harmful or cruel text or images using the internet or other digital communication devices. Cyber-threats are online materials that threaten or raise concerns about violence against others, suicide, or self-harm. These behaviors are not conducive to a learning environment.

Sexual Harassment

Sexual harassment of students, employees, or others who participate in district programs and activities is strictly prohibited in the Waynesville R-VI School District. A student is any person enrolled in the school district or in district instructional programs. Sexual harassment of students is defined as sexual advances, requests for sexual favors, or verbal or physical conduct of a sexual nature made by a member of the school staff to a student, made by a student to another student, or made by a student to a school staff member when:

1. Submission to such conduct is made either explicitly or implicitly as a term or condition of a student's academic status or progress, or
2. Submission to or rejection of such conduct by a student is used as the basis for evaluating the student's performance within a course of study or other school-related activity, or
3. Such conduct has the purpose or effect of interfering with a student's educational performance or creating an intimidating, hostile, or offensive educational environment.
4. Such conduct has the effect of favoring another student.

Whether a student voluntarily submits to sexual advances or requests is irrelevant for purposes of this policy. Sexual harassment of a student by an employee, another student, or another person associated with the operation of the school district or its programs and activities may include such things as sexually oriented jokes, remarks, cartoons, pictures, or letters; pressure for sexual activity, whether written, verbal, or through physical gestures; and physical contact such as patting or pinching.

Students who believe that they have been victims or have witnessed sexual harassment should report the incident to any teacher, guidance counselor, or school administrator. The staff member who receives the complaint will promptly inform the administrator who is designated to investigate such reports, or the next level administrator who is not subject of the complaint.

There will be no adverse action taken against a person for making a complaint of sexual harassment when the complainant in good faith believes sexual harassment has occurred or is occurring or for participating in or cooperating with an investigation or such complaint. Adverse action would include any form of intimidation, reprisal, or harassment such as suspension, expulsion, termination, and change of educational conditions, loss of privileges or disciplinary action. Any individual who retaliates against an employee, student, or other person who in good faith reports, testifies, assists or participates in an investigation or hearing related to sexual harassment complaint will be subject to discipline.

The appropriate administrator shall provide for a thorough, prompt investigation of the incident, and the investigation and written report shall be completed within a reasonable period of time. The district shall take disciplinary action where appropriate, up to and including suspension and/or expulsion of the student; suspension and/or termination of the employee; or such action as the district has the authority to take against other persons, in order to ensure that further sexual harassment does not continue. No person who is the subject of a complaint shall conduct such an investigation. If the superintendent is the subject of a complaint, an investigation will be conducted by an individual authorized by the Board. Any student found to have violated this policy by committing an act of sexual harassment or retaliating against a complainant or participant in the investigation shall be subject to disciplinary action including, but not limited to, suspension or expulsion. Confidentiality will be preserved consistent with applicable laws and the responsibility to investigate and address such complaints.

If investigation of a student complaint results in reasonable cause to suspect that the student has been subjected to abuse or neglect of a student under the age of eighteen (18), the matter will be reported in accordance with the Waynesville R-VI Public School Board Policy, Reporting Abuse. Students who believe that their complaint has not been satisfactorily resolved may file a grievance at the appropriate level.

Waynesville School of Practical Nursing Mission Statement

We are dedicated to providing comprehensive education and employment preparation to the adult student enrolled in the Waynesville School of Practical Nursing.

Waynesville School of Practical Nursing **Statement of Philosophy**

The Waynesville School of Practical Nursing derives its philosophy and purposes from the mission statement of the parent organization, the Waynesville R-VI School District. Therefore, the Waynesville School of Practical Nursing faculty collectively accepts the obligation to community service, continuing education, academic excellence, and the provision of educational opportunities.

Nursing is a profession concerned with assisting the client system to maintain, attain, or regain optimal health; also, offering support and the preservation of dignity when death of the system is imminent. Nursing assistance is required when the client system experiences actual or potential environmental stressors. A nurse plays the role of communicator, provider of care, health care team member, and educator and coordinator of care in order to assist the client system. The nursing process and a body of knowledge derived from nursing theory and other disciplines are used to identify client system needs and develop interventions to promote optimal health.

The educational program is planned and organized to assist the student to reach his/her potential. Theory and practice are integrated to emphasize the relationships of facts, concepts, skills, and the mind-set required in the performance of practical nursing. The program is based on the premise that each patient/resident is a unique individual who is worthy of being treated in a professional and holistic manner.

The program begins with basic concepts in theory and practice, and then advances to the more complex

as the student progresses. The program also encourages the student to broaden his/her views and look to the future.

The ultimate goal is to assist the student in gaining knowledge, skills, and the ability needed to acquire the type of employment and/or continuing education that he/she desires.

The practical nurse provides nursing care in compliance with the Missouri Nurse Practice Act.

We believe in non-discrimination regarding sex, age, race, color, religion, creed, national origin, or disability, as specified by federal and state laws and regulation.

Missouri Nurse Practice Act: Definition of a Practical Nurse

Such performance requires substantial specialized skill, judgment and knowledge. All such nursing care shall be given under the direction of a registered professional nurse. For the purposes of the 335.016, the term direction shall mean guidance or supervision provided by a person licensed by a state regulatory board to prescribe medications and treatments or a registered professional nurse, including, but not limited to, oral, written or otherwise communicated orders or directives for patient care. When practical nursing care is delivered pursuant to the direction of a person licensed by a state regulatory board to prescribe medications and treatments or under the direction of a registered professional nurse, such care may be delivered by a licensed practical nurse without direct physical oversight.

Grading

100%-92%	A
91%-84%	B
83%-80%	C
Below 80%	F

*****FINAL GRADES WILL NOT BE ROUNDED*** (Example: 91.99=B, 79.99=F, 76.99=F)**

In addition, nursing achievement exams may be administered during the course work and at the end of each designated course counting towards grades.

Make-up of Assignments and Tests for Classroom Theory:

When absent from class, the student is responsible for contacting the instructor(s) regarding missed material. Absence from class will be made up in a manner recommended by the instructor. It is recommended the student contact the instructor(s) prior to returning to class. Assignments may be reading, written, study questions, charts, graphs, projects, audiovisual, or computer-assisted study.

If a test is not taken when scheduled, make-up tests are to be taken at 7:00am (before class starts) on the day the student returns to the classroom or clinical setting. Quizzes cannot be made up in original format.

***Finals must be taken at designated time. No other date and time is acceptable.**

The student is to contact the instructor to schedule a time to make up the test. If the student does not take the test on the first day the student returns to the classroom, the student will receive a "0" for the test grade. If you feel that you have an extenuating circumstance, this will be reviewed on a case by case basis. **This extenuating circumstance determination may not be appealed.** Documentation may be required.

EXAMS CANNOT BE RETAKEN. If you do not complete your exam or you accidentally skip pages or miss pages you do not get to retake the exam. BE VERY CAREFUL AND BE THOROUGH WHEN COMPLETING ALL OF YOUR EXAMS.

All homework and assignments/activities (including clinical assignments/activities) must be turned in on the date assigned by the instructor to earn full credit. If absent from class, the student must turn in at **0800** on the day he/she returns to class to earn full credit.

Should assignments/activities not be turned in on the assigned due date, a zero (0) will be earned by the student, and an incomplete is given for the class until the assignment is turned in.

No tests will be made up during class lecture time.

Once an assignment is turned into the assigned instructor, it is considered complete. Assignments will not be returned to be completed if already turned in.

Students cannot pass a course with any incomplete assignments. Any incomplete assignments are to be completed the Monday prior to the final of any course. If assignments are not completed the Monday prior students will lose classroom hours until incomplete assignments are turned in for that course. Should students not have assignments completed by the day of finals students will be dismissed from the program.

Classroom Theory

The student must make a cumulative average of 80% in each course to continue in the program and meet the requirements to apply for the licensure examination.

At the completion of each course, the student will be issued his/her grade. **Students are responsible for monitoring their own grades throughout the coursework.**

Students may meet with faculty at any point during the course to inquire about their grades.

Clinical Setting

The freshman clinical experience will be conducted from January of each year and go into March of each year.

The senior clinical experience will begin with a pinning ceremony in March signifying the student's transition from the freshman to senior nursing student. The senior clinical rotation will be conducted from mid-March through June.

Each student will be graded objectively on each clinical day in the freshman and senior rotation. Each instructor uses a clinical grading rubric for each individual student. Daily grades will be recorded based on the rubric. The student is required to have a cumulative average of 80% at the completion of the freshman clinical rotation and an 80% at the completion of the senior clinical rotation to continue on in the program. Students must complete the assignments with a passing score or an incomplete will be received for that clinical rotation. The original grade will remain a zero. Any student who does not achieve a cumulative 80% at the end of the freshman or senior clinical rotation will be dismissed from the program.

A student may be placed on Clinical Probation at the discretion of the Nursing Coordinator and Clinical Instructor following unsatisfactory ratings in any of the evaluation criteria. The student will be notified of the unsatisfactory rating by the instructor and will receive a written letter of clinical probation. Counseling will be done at that time to assist the student to improve his/her clinical performance. Students must have all assignments completed before moving on to the next clinical location.

Reminder: You must have a cumulative average of 80% in each course (including clinical courses) to pass the course. Failure to meet these requirements will result in dismissal from the program.

These issues deal with psychological, emotional, and spiritual needs. Cultural diversities in relation to healthcare delivery are also explored. The importance of recognizing each person as a unique being and methods of developing therapeutic communication skills that allow for the development of effective interpersonal relationships is stressed. This course also allows the student to begin to understand the legal and ethical issues in healthcare and prepares them to make decisions, as graduates, in compliance with the Missouri Nurse Practice Act and the IV Therapy Rules in order to practice as responsible nurses within their community.

Fundamentals of Nursing I

Fundamentals are the basic foundation course for a nurse's education. Concepts of the nursing processes that teach the student how to problem solve and assess patient condition is the focus throughout the course. The student learns how to perform technical nursing procedures, document patient condition and responses to medical treatment, and the application of communication methods that create effective communication with the patient, family, and members of the health care team.

Fundamentals of Nursing II

Fundamentals II will be a continuation from Fundamentals I to form the basic foundation course for a nurse's education. Concepts of the nursing processes that teach the student how to problem solve and assess patient condition is the focus throughout the course. The student learns how to perform technical nursing procedures, document patient condition and responses to medical treatment, and the application of communication methods that create effective communication with the patient, family, and members of the health care team.

Anatomy and Physiology, I and II

This class includes a lab section as well. This course is designed to give the students an understanding of

the structure and function of the human body in health and disease. An understanding of each body system and their function, along with the interactions and relationships between each body system is necessary for the nurse to comprehend. The principles of human anatomy and physiology are a significant element to the foundation of nursing.

Math and Pharmacology

This course is designed to introduce the student practical nurse to math and medications. It is intended to motivate the student nurse to determine proper dosage, along with administering and monitoring medication with concern for safety, precision, and attention to important physiologic factors. The importance of integrating patient education about medications into the treatment plan, as well as description of the nursing process and its relationship to medication, administration is emphasized.

Life Span (Growth and Development)

This course builds on Erickson's levels of personality development and Maslow's Hierarchy of Needs. The development of individuals as they change and grow throughout the life span is addressed in this course and throughout the nursing program including influences of biological, cognitive, and social processes. This course expands the students' knowledge across the life span using various different resources and exercises.

Freshman Clinical

Clinical experience is available at acute care facilities, long-term care facilities, and community-based agencies. Assignments are made on an individual basis depending on the requirements of the students and their level of progress. Clinical experiences are under the supervision of the faculty. Pre and post clinical conferences are held as scheduled by the faculty. Conferences are patient-centered utilizing the nursing process for care of specific clients in selected nursing situations.

Nutrition

This course addresses the basic principles of nutritional needs throughout the life cycle and in the application of these principles, the maintenance and restoration of health. The diet therapy component prepares the practical nurse student to work with individuals with alterations in nutritional needs. An overview of the basic information needed to make valid decisions to maintain wellness, prevent disease, and support diet therapy is addressed. Nutrition is a course designed to provide students with knowledge of the principles governing healthy dietary patterns and the relationship between dietary practices and various disease states. An understanding of nutrition is an integral component in the art and science of nursing compromised patients and assisting individuals to achieve their highest level of wellness.

Medical-Surgical Nursing I

This course is designed to teach students to care for the medical-surgical patient and is an introduction to the basic concepts of nursing care of adults. The nursing process will be used in an in-depth study of disease processes associated with the various body systems. The emphasis is on meeting the needs of the whole client. This course enhances the student's ability to assess, implement, and evaluate nursing interventions as they apply to medical or surgical patients.

Successful students will assimilate the care needs of the client in conjunction with his/her disease process or surgical interventions.

Medical-Surgical Nursing II

This course is designed to teach students to care for the medical-surgical patient and is an introduction to the basic concepts of nursing care of adults. The nursing process will be used in an in-depth study of disease processes associated with the various body systems. The emphasis is on meeting the needs of the

whole client. This course enhances the student's ability to assess, implement, and evaluate nursing interventions as they apply to medical or surgical patients. Successful students will assimilate the care needs of the client in conjunction with his/her disease process or surgical interventions.

Introduction to Robert's Rules of Order

The WCC-School of Practical Nursing has designated ***Robert's Rules of Order*** as the authority on matters relating to parliamentary practice and the conducting of all official Class meetings.

Following is a very brief summary of how ***Robert's Rules of Order*** is applied to meetings.

The final authority for resolving questions of procedure will be ***Robert's Rules of Order Newly Revised, 10th Edition***.

What Is Robert's Rules of Order?

It is a set of rules for conducting meetings that allow participants to be heard and to make decisions without confusion. It is often referred to as parliamentary procedure.

Why is Parliamentary Procedure Important?

Because it is a time-tested method of conducting business at meetings and public gatherings. It can be adapted to fit the needs of any organization. Today, Robert's Rules of Order Newly Revised is the basic handbook of operation for most clubs, organizations and other groups. So, it's important that everyone know the basics.

Organizations using parliamentary procedure usually follow a fixed order of business. Below is the format generally followed.

1. Call to order
 2. Roll call of members present.
 3. Welcome
 4. Approve agenda
 5. Approve minutes of previous meeting(s)
 6. Reports/Committee Assignments
 7. Communications/Open Forum
 8. Old Business
 9. New Business
 10. Adjournment
-

Class members express themselves by discussing and making motions. A motion is a proposal the entire Class members take action on. Class members can:

1. Make motions (*move to adopt items on the agenda*).
2. Second motions.
3. Debate motions.
4. Vote on motions.

There are three basic types of motions:

1. Main Motions:
The purpose of a main motion is to introduce items to the membership for their

Consideration. They cannot be made when another motion is on the floor but yield to subsidiary, and incidental motions.

2. Subsidiary Motions:

The purpose is to provide a means of questioning procedure concerning other motions and must be considered before the main motion.

3. Incidental Motions:

Their purpose is to provide a means of questioning procedure concerning other motions and must be considered before the other motion.

How are Motions made?

Only Class members may make motions; the class member:

1. Obtains the floor
 - a. Waits until the last speaker has finished.
 - b. Addresses the President
 - c. Waits until recognized by the President.
2. Makes the motion
 - a. Speaks in a clear and concise manner.
 - b. States the motion affirmatively. "I move that we..." rather than, "I move that we do not..."
 - c. Avoids personalities and stay on your subject.
3. Waits for another member to second the motion.
4. Another member seconds the motion or the President calls for a second.
5. If there is no second, the motion dies.
6. If the motion is seconded, the President re-states the motion
 - a. The President will say, "It has been moved and seconded that we...", thus placing the motion before the membership for consideration and action.
 - b. The membership then either debates the motion or moves directly to a vote.
 - c. Once the motion is presented by the President it becomes "assembly property", and cannot be changed without the consent of the Class Members.
7. Discussing a motion
 - a. The movant is always allowed to speak first.
 - b. All comments and debate must be directed to the chairman.
 - c. Keep to the time limit for speaking if one has been established.
 - d. The movant may speak again only after other council members wishing to speak have

spoken, unless called upon by the President.

8. “Calling the question”
 - a. The President asks, “Are you ready to vote on the motion?”
 - b. If there is no more discussion, a vote is taken.

How are motions voted on?

There are a number of ways a group can vote on a motion. However, two are generally employed, they are:

1. By General Consent – When a motion is not likely to be opposed such as those listed under the consent agenda, the President says, “If there is no objection...” The Class members show agreement by their silence, however if one member says, “I object,” the item must be put to a vote.
2. By Roll Call – Each Member answers “yes” or “no” as his or her name is called. Most motions are voted on.

There are two other motions that are commonly used that relate to voting.

1. Motion to Table – This motion is often used in the attempt to “kill” a motion. The option is always present, however, to “take from the table” for reconsideration by the membership.
2. Motion to Postpone Indefinitely – This is often used as a means of parliamentary strategy and allows opponents of motion to test their strength without an actual vote being taken. Also, debate is once again open on the main motion.

Parliamentary Procedure is the best way to get things done at meetings. But, only works if it used properly.

1. Only allow motions that are in order.
2. Require speakers to obtain the floor properly.
3. Speakers must speak clearly and concisely.
4. All comments must be directed to the President.
5. Most important, courtesy is to be observed at all times
