

Sports Medicine 1 Student Guidelines:

SIGN and Return BY FRIDAY AUGUST 27, 2021

General Information

Students will be required to complete 4 observation hours with a professional on the sports medicine team. Four hours required per semester. The hours can be consecutive or separated but need to be completed before the end of the semester. These can be with me or with a physician, nurse, orthopedic surgeon, dentist, chiropractor or physical therapist; however, prior approval must be granted from Ms. Fleischmann before scheduling these outside of Waynesville High School. These hours need to be completed after school hours, on a day we do not have school if there are practices or games, or Saturday tournaments. In season athletes can easily come during AA some days or shadow me at a game after your practice is over. We will be able to make it work around your schedules. **Remember to sign up on the calendar with Ms. Fleischmann prior to showing up because I can only have up to 3 students at a time.**

You will need to fill out and turn in the observation sheet following your observation experience. **This is worth 100 points. 25 points for each hour. Please do not wait until the last week of the semester to get this in.**

Guidelines:

- **Social Media:** Students are forbidden from posting any information about instructors, classmates, residents and or patients, or facilities on their accounts. Talking about a patient or a patient's medical condition is a breach in confidentiality (HIPAA), this also includes any of your friends you may see get treatment at practice.
 - **Breaching a patient's confidentiality IS grounds for forfeiture of remaining shadowing hours and points.**
- **Technology:** Students and parents must fill out and sign the district technology form before technology can be used in the classroom. Google classroom and Canvas will be used often and students will be required to join the Sports Medicine class and complete and submit various assignments through it. Students MUST have their chromebooks and chargers with them daily. A lot of what we do in this course is on google classroom and or canvas.
- **Academic Dishonesty:** Academic dishonesty will be handled according to the student handbook: "Cheating on tests, assignments, projects or similar activities; plagiarism; claiming credit for another person's work; fabrications of facts, sources or other supporting material; unauthorized collaboration; facilitating academic dishonesty; and other misconduct related to academics." Examples of cheating include, but are not limited to, copying answer from another paper (graded or not); talking or having cell phones out during assessments; looking at another student's paper at any time. If a student is found cheating, student will

not receive credit for the work (as per the student handbook) and a discipline referral will be turned in to the office.

- **Guest Speakers:** Throughout the school year Sports Medicine students will hear from a number of healthcare professionals. It is the expectation that students are active listeners, engaged in conversation, appropriately dressed, and well mannered (i.e. refrain from technology use, no eating, no drinks other than water). Any unprofessional behavior during guest speakers will result in disciplinary action.
- **Student Attire:** Students are required to follow the student dress code according to the student handbook. Days that students job shadow the athletic trainer he/she will need to wear school appropriate jeans, khakis, or khaki shorts, and a Waynesville t-shirt or Polo.

Unprofessional behavior while job shadowing, or breach of HIPAA protocols is grounds for forfeiture of rest of job shadowing hours and points for this assignment. We rely on these shadowing opportunities for an educational experience, but must obtain a professional appearance to avoid interfering and disturbing our teams' practices and games.

Sports Medicine Responsibility Contract

I have read and understand the responsibility of taking Sports Medicine
