MEMORANDUM FOR Waynesville High School Students

SUBJECT: ASVAB Practice and Study Information

1. The ASVAB (Armed Services Vocational Aptitude Battery) is the intellectual screening tool the Armed Forces use to test your mental aptitude. Your score on this test, determines whether you can get into the military, and if so, what occupational specialties you qualify for. The higher your score, the more opportunities you qualify for. The different service recruiters can advise as to what scores are necessary for enlistment, and what scores are necessary for various jobs. It is in your best interest to score as high as you can, so I would recommend you study for this test, just as you would the ACT or SAT.

2. The following is a list of the resources that can assist you. There are a wide array study guides available, in books, on line and smart phone applications. You can search on line and find many. These are some the better known and higher rated ASVAB study resources:

a. MARCH 2 SUCCESS. March 2 Success provides materials to help improve scores on the standardized tests, such as SAT, ACT, state exit exams and ASVAB.
